

AQUAPRIME

Prime Blend's AquaPrime™ water-based adhesives range from the standard, workhorse products commonly used throughout the industry to new, proprietary formulations custom developed to meet specific customer or application needs. The Prime Blend team brings a can-do, entrepreneurial mindset along with years of formulation, manufacturing, and technical support experience to each and every opportunity. Consistent quality, competitive pricing, superior performance, quick order turnarounds, and many more benefits come standard with all our products.

If you are interested in learning more about our AquaPrime™ water-based adhesives, please contact us as we are ready to become your supplier of choice.

Product Families	Key Features	Benefits
FOLDING CARTON		
<ul style="list-style-type: none"> • High speed extrusion • Wheel application • Contact and non-contact • Straight line and right angle • Windows 	<ul style="list-style-type: none"> • Custom formulated viscosities • Low Tg VAE polymers • Foil and film to paper bonds • High solids VAE • No tailing, clogging, or splashing • Consistent extrusion beads • Optional broad end use temperature resistance 	<ul style="list-style-type: none"> • Fiber tearing bonds • Wet tack and tack range • Final adhesion to difficult stocks • Processing efficiencies • Clean machining • Food contact approval • Shear strength
BAG MANUFACTURING		
<ul style="list-style-type: none"> • Paper/film/foil lamination • Heat seal coating • Cold seal coating • Bottom paste • Side seam • Seceptor patch • Windowing 	<ul style="list-style-type: none"> • Excellent hand/feel • Direct food • Microwave safe • Lowest VOC VAE • Pot stability • Enhanced barrier properties 	<ul style="list-style-type: none"> • Fiber tearing bonds • Wet tack and tack range • Environmentally friendly • Manufacturing efficiency • Easy clean up • Fast setting
PAPERBOARD CONVERTING		
<ul style="list-style-type: none"> • Layflat for laminating • Wide variety of open times • Easy clean up • Wet tack and tack range • Penetration to porous substrates • Adhesion to coated stock 	<ul style="list-style-type: none"> • Litho Laminating <ul style="list-style-type: none"> • Assitrade • Automatan • Pot-Devin • Tunckers • Dual Mounter • Glued lap – Flexo Folder Gluer 	<ul style="list-style-type: none"> • Borated-tackified • Layflat no curl • No blisters • High solids • Wide range of viscosities • Water soluble / water resistance • No strikethrough

AquaPrime adhesives can be ordered in tank wagons, totes, drums, or pails.
